## OPTIONAL PORT-A-PACK

The battery charger is located in the front pocket. You can remove it and store it elsewhere to reduce weight.

Battery charger and power inverter documents are located in the back pocket. *Please read for important information and warnings.*

The large center pocket contains the battery and power inverter. *Always make sure that the battery is in the upright position!*

### USING THE PORT-A-PACK

1. Plug the power inverter wires into battery. Be sure to unplug wires from battery when not in use!
2. Plug POW! Stick into one of the AC sockets on the power inverter.
3. Turn inverter power switch on.

POW! Stick is now active and ready!

## CHARGING THE PORT-A-PACK

The battery charger is located in the front pocket. Remove it.

If the power inverter is plugged into the battery then unplug it. Plug the RED and BLACK battery charger wires into the battery as shown. Plug the charger into an AC wall socket.

A red light indicates the battery is charging, green indicates it is fully charged.

Unplug the charger wires from the battery. If you will be using the POW! Stick plug the power inverter wires into battery. *Be sure to unplug wires from battery when not in use.*
